pro bright

skin condition
Hyperpigmentation or Uneven Skin Tone.

description
The **Pro Bright** service is a high-intensity, 3-phase skin treatment designed to boost the absorption of highly effective brightening actives into the skin. This treatment addresses dark spots and reduces uneven pigmentation to reveal brighter, smoother skin.

benefits
- Reduces dark spots
- Brightens skin
- Evens skin tone

featured professional products
- UltraBright Peel
- PowerBright IonActive Serum
- Conductive Masque Base
- BioLumin-C Pro Serum
- BioLumin-C Eye Serum
- BioLumin-C Heat Aging Protector SPF 50

how it works

1. **Brighten**
   UltraBright Peel's high concentration of Lactic Acid brightens skin as it delivers a deep exfoliation.
2. **Infuse**
   Apply PowerBright IonActive Serum to reduce the appearance of dark spots and uneven skin tone or BioLumin-C Pro Serum to deliver antioxidant protection and continued brightening. Followed by Conductive Masque Base which hydrates and locks the serum into the skin. Infuse with an electrical modality or manual tool for enhanced results.
3. **Protect**
   BioLumin-C Heat Aging Protector SPF 50 brightens + defends against heat aging and protects against UV rays.

treatment protocol

I. double cleanse
1. Begin with an eye and lip cleanse.*
2. Dispense 1-2 pumps PreCleanse, manipulate on dry face for 1-2 minutes, emulsify with water, and remove with damp sponges or esthetic wipes.
3. Perform Face Mapping skin analysis.
4. Dispense Special Cleansing Gel into a cup with Daily Microfoliant and mix with a small amount of water. Apply with a fan brush, cleanse, and then remove with damp sponges or steam towel.

II. resurfacing
1. Apply One-Step Prep.
2. Next apply a skin-appropriate amount of layers of UltraBright Peel: 1 minute per layer for activation.
3. Finish by applying Neutralizing Solution and remove with damp cotton or esthetic wipes.

III. touch therapy*
- Suggested Pressure Point or Stress Relief Scalp

IV. deep treatment*
1. Apply BioLumin-C Pro Serum or PowerBright IonActive Serum.
2. Next apply Conductive Masque Base with a fan brush.
   a. Modality options: microcurrent or another product penetration device.
   b. Non-electrical tool options: metal or stone rollers, cool marble stones or globes
3. Remove the remaining Conductive Masque Base with a steam towel.

V. dermal layering
1. Spritz the skin with Dermalogica skin-specific toner.
2. Apply BioLumin-C Pro Serum or PowerBright IonActive Serum.
   a. Modality options: microcurrent or another product penetration device.
3. Apply BioLumin-C Eye Serum.
4. Finish and protect with BioLumin-C Heat Aging Protector SPF 50.

---

*For 30-minute option, omit Eye and Lip Cleanse, Touch Therapy, and Deep Treatment.
