

skin condition

Normal to mature or prematurely-aging skin.

description

Fade dark spots and reveal brighter skin. This treatment combines a brightening peel with electric infusion of professional-grade Vitamin C, Niacinamide and Hexylresorcinol – addressing pigmentation concerns.

benefits

- Reduces dark spots
- Brightens skin
- Evens skin tone

featured professional products

- UltraBright Peel
- PowerBright IonActive Serum
- Conductive Masque Base
- BioLumin-C Pro Serum

pro bright

how it works**1. Exfoliate**

UltraBright Peel preps skin for absorption of Niacinamide, Hexylresorcinol and Vitamin C.

2. Infuse

The electric infusion enhances absorption of PowerBright IonActive Serum or BioLumin Pro Serum to help increase bioavailability. 

3. Activate

Conductive Masque Base hydrates the skin and defends against daily stresses. Professional serums deliver continued brightening and antioxidant benefits.

treatment protocol**double cleanse**

- Begin the double cleanse by applying PreCleanse to damp esthetic wipes and use over the skin to remove debris.
- Perform a brief Face Mapping skin analysis.
- Dispense Special Cleansing Gel into a cup with Daily Microfoliant and mix with a small amount of water. Apply with a fan masque brush, cleanse and then remove.

+ Power up: Skin Resurfacing Cleanser with Daily Microfoliant

resurfacing

With gloved hands, apply One-Step Prep to the skin.

- Next apply 1-2 layers of UltraBright Peel: 1 minute for activation.
- Finish by applying Neutralizing Solution and remove with damp cotton or esthetic wipes.

Resurfacing alternatives:

+ Power up: Layer UltraBright Peel with AdvancedRenewal Peel

- Power down: Exfoliant Accelerator 35 mixed with Daily Microfoliant

deep treatment

- Apply a small amount of Biolumin-C Pro Serum or Powerbright IonActive Serum to the skin.
- Next apply Conductive Masque Base with a fan masque brush.
- Modality options: microcurrent or other product penetration device
- Non-electrical tools: metal or stone rollers, cool marble stones or globes

dermal layering

- Spritz the skin with Dermalogica skin-specific toner.
- Apply a small amount of BioLumin-C Pro Serum or PowerBright IonActive Serum
- Modality options: microcurrent or product penetration device
- Treat the eye area with BioLumin-C Eye Serum.
- Finish the treatment with Biolumin-C Gel Moisturizer followed by Invisible Physical Defense SPF 30.
